CLIPSO® **C**ommunications Americas

Performance Ceilings & Walls For The Interior Design Industry

'Tis the Season to illuminate your designs with CLIPSO®

CLIPSO's backlighting capabilities are the perfect combination of functional and aesthetically pleasing.

Translucent Fabrics

- 307 T (30% Translucent)
- 308 T (50% Translucent)
- 309T (70% Translucent)
- 495 AT (Acoustic Translucent- 40%)

All CLIPSO Translucent fabrics are able to feature custom printing to further complement your decor!

Lighting Options

CLIPSO systems can integrate several types of lighting in conjunction with these translucent fabrics.

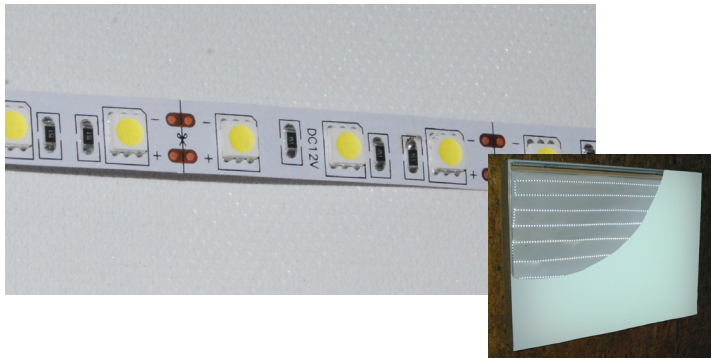

LED Module Lighting

Benefits:

- Lighting is contained inside the frame
- Provides bright and even light flow of up to 16'
- Light modules specifically designed with a 10° light spread
- Cleaner, more uniform look
- More frame configurations available
- Makes relocating easy
- Lower material cost
- Lower installation cost
- Easy installation
- Longer bulb life (50,000 hours)
- Waterproof
- Low working voltage is optimized for safety

LED Strip Lighting

- Lighting is contained inside the frame
- Provides a more even light flow
- Clean and uniform look
- More frame configurations available
- Makes relocating easy
- Higher material and installation cost
- Longer bulb life

Fluorescent Lighting

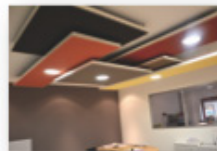

- Lighting is located outside the frame
- Light source more prone to hot or cold spots
- Light fixtures more difficult to position and install
- Makes relocation more difficult
- Lower material cost
- Higher installation cost
- 12 month average bulb life

Applications

Ceiling Panels

Ceiling Clouds

Wall Frames

Partitions

Lightboxes

Torsion Spring Panels

Tradeshow Booths
