Performance Ceilings & Walls For The Interior Design Industry

Project of the Month

Welcome to the Azrieli Group shopping mall in Israel!

CLIPSO Ceiling & Wall was installed in this newly-built shopping mall from the Azrieli Group, who owns 14 shopping malls in Israel. This project was designed and managed by David Azrieli Architects and Avner Sher Architects, and was installed by Art Cover, a local CLIPSO installer in Israel.

This project consists of large triangular ceiling panels intended to add depth, design and allow natural light to flood the length of the mall. In total, more than 10,000 square feet of CLIPSO 495D acoustic fabric was installed to enhance the acoustic performance of the space and allow for a friendly and welcoming environment. For more information about CLIPSO Ceiling & Wall, visit www.clipsoceilingwall.com.

Applications

Ceiling Panels

Partitions

Ceiling Clouds

Wall Frames

Lightboxes

Torsion Spring Panels

Tradeshow Booths
