# CLIPSO® **C**ommunications Americas

Performance Ceilings & Walls For The Interior Design Industry

Project of the Month:

## **Fannie Mae Headquarters**

Washington, DC

**CLIPSO® Certified Installer:**  
Fabric Wall Concepts

**Architect:**  
MGAD

**General Contractor:**  
Hitt Contracting

**Products Used:**  
30% Translucent 307T  
with digital printing

When Michael Graves Architecture and Design went looking for a unique design for the Fannie Mae headquarters in Washington DC, they found CLIPSO®. The iconic firm wanted a special type of illuminated surface to transform a solid wall. They asked project General Contractor Hitt Contracting, if they knew anyone who could achieve the desired look.

Hitt suggested Fabric Wall Concepts of Baltimore, a CLIPSO Certified Installer. The result is a stunning 70' illuminated wall featuring digitally printed images of the Washington DC skyline. Vertical metal casings add to the illusion that you are looking through a high-floor wall of windows out onto the cityscape.
