# CLIPSO® **C**ommunications Americas

Performance Ceilings & Walls For The Interior Design Industry

**DON'T GET  
SPOOKED!**

Installing CLIPSO is  
fast and easy!

CLIPSO® coverings and profiles can adapt to any design need and existing architecture. CLIPSO can be installed quickly and easily without using any heat or water. The eco-friendly CLIPSO system produces little waste, requiring minimal clean up. A whole new look is possible without disrupting everyday activities in your home or business.

## Three Easy Steps

1. Attach Profiles

2. Tuck Fabric

3. Stretch and Trim

## Featured Project

In 2010, CLIPSO helped to facilitate the Sita Aero project at the Hartsfield-Jackson International Airport in Atlanta, Georgia. The architect, Gensler, created a design featuring custom printed imagery on 307T coverings that incorporates specialty backlighting when suspended in rows of P-CCA aluminum frames. **Ritz Interiors** was able to install this entire project, spanning several of the airport's walls, in under two days.

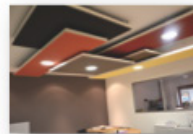

## More Information

If you have questions regarding installation, or have an upcoming project, please feel free to contact our Project Manager, PJ Del Toro, at [pdeltoro@clipso.com](mailto:pdeltoro@clipso.com). If you would like to learn more about becoming a Certified CLIPSO Installer, please email our Director of Sales, Kip Howard, at [khoward@clipso.com](mailto:khoward@clipso.com).

## Applications

**Ceiling Panels**

**Ceiling Clouds**

**Wall Frames**

**Partitions**

**Lightboxes**

**Torsion Spring Panels**

**Tradeshow Booths**
