Installer: Unique Construction. Independent Sales Rep: S & S Resources, Inc. CLIPSO materials: 495 AC Straw fabric,
custom printed. P-CC profile. LA 53 acoustical batting.

It's September, and you know what that means;
the days get shorter, the nights grow colder, and the kids go
BACK TO SCHOOL!

Did you know that CLIPSO® coverings are ideally-suited for use in schools and universities?

- CLIPSO coverings provide a smooth and uniform surface that can span spaces up to 16'4" wide by 150' long without joints or seams.
- CLIPSO coverings are simple and quick to install without interrupting class schedules.
- They are durable, easy to maintain and Class A fire rated.
- CLIPSO coverings contain no PVC, VOCs, phthalates or other cancer-causing materials and contribute to USGBC LEED compliance for indoor air quality.
- Our Antibacterial Sanitized TH 22-27 coverings reduce the risk of microbial proliferation and are especially-suited for high-traffic environments.
- CLIPSO coverings have some of the highest acoustic NRC values in the industry.
- The CLIPSO system offers ultimate design flexibility; any shape or creative intent is easily met with our wide array of profiles and options.
- CLIPSO coverings can be custom printed for school branding, directional needs, and any other design intent.

The perfect combination of function and aesthetics; consider CLIPSO for your academic environment needs.
