of ceilings and walls!

Dine On Tranquility at Yvonne's

Yvonne's Restaurant, Boston, MA

Installer: ML McDonald Company - Independent Sales Rep: Hamilton Associates Inc.

The owners of Yvonne's in Boston had spent a lot of time and money to design their exquisite restaurant. They did such an amazing job that the restaurant won the "Stone Cold Stunner" award in the category of Restaurant Design in the 2015 Boston Eater Awards. Unfortunately, the acoustics didn't match the elegant design and customers were complaining about the noise. They were on a mission to keep their beautiful decor but improve the acoustics of the restaurant, so they turned to Hamilton Associates for help. Hamilton Associates knew that CLIPSO acoustic coverings were the solution!

The graphic design team at CLIPSO was able to copy the existing printed wallpaper onto its acoustical 495 D coverings. It was backed with two layers of LA 53 acoustical batting, providing a Noise Reduction Coefficient (NRC) of 0.85 and a Sound Absorption Average (SAA) of 0.83. The restaurant was able to keep their same alluring design but now had an acoustical absorption far exceeding their customer's expectations. CLIPSO also provided black panels behind the bar for additional acoustic performance.

The restaurant owners were so happy with the product that they are currently in design for using the same CLIPSO acoustical print in their new office in downtown Boston.

Congratulations to the installation team at ML McDonald Company on a beautiful installation!

CLIPSO: the Design Solution that meets all of your needs

For new construction or renovation, CLIPSO, the French Manufacturer, specializes in stretch fabrics for your walls and ceilings.
