**The next generation**  
of ceilings and walls!

**Project of the Month**

**"World Class" Design For This Large US Law Firm**

Raleigh, NC

**CLIPSO Certified Installer:**  
Warco Construction, Inc.  
**Architect:** Gensler

This client wanted a "World Class" design concept to include a monolithic, translucent ceiling in their corporate reception area. Gensler worked with the client extensively to ensure that their vision and performance goals would be met. Once they knew what the final outcome should be, Warco Construction, Inc., a CLIPSO Certified Installer, was able to supply them with the best product to achieve the desired goals and aesthetic. They used 650 square feet of CLIPSO 70% Translucent 309 T coverings in addition to CLIPSO P-CWS and P-C10QS profiles within the ceiling cavity along with LED lighting. The project took 6 installers approximately 1 week to complete.

## THE RESULTS WERE OUTSTANDING!

This space won IIDA Design Works 2017 Honorable Mention for the category, "Corporate-Large." As per Jim Warren of Warco Construction, "The owner absolutely loves their 'infinity ceiling' and has been very willing to share their positive experience with this project."

## THE SIMPLE SOLUTION!

The CLIPSO system of profiles and coverings is fast and simple to install. It does not emit any odors or harmful VOCs and can be installed during off-hours so your business or home need never be disrupted. It truly is the ideal solution for any interior environment.
